

[Fronalpstock Stoss Switzerland](#)

A visit to the Fronalpstock in Switzerland

The Fronalpstock is a fantastic mountain tourist destination located in the canton of Schwyz in Switzerland. It is high up at an altitude of 1,922 meters above sea level. The summit is accessible by cable car from the village of Stoos, that by itself is a beautiful little ski resort, it is accessible via a funicular and is car free, to get to the base station of the funicular take a postal bus from Brunnen or by car along the main road there is a parking place there. See Map here:

They offer extensive hike ways in the summer time and fabulous ski slopes in the winter time, or just go up there to enjoy the views and have a great lunch at the summit restaurant. They also have a few rustic guest rooms if you want to spend the night there and enjoy the sunset and sunrise with a fantastic panorama view above the clouds on some days to the Swiss Alps and Lake Lucerne.

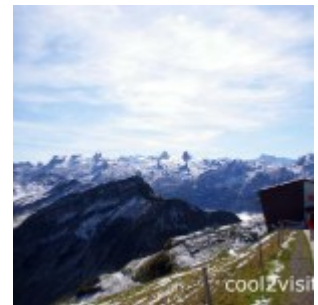

Attached are a few images taken back in 2008 in the month of September.
